NEWSLETTER No. 234 (22/07/2020)

Hi everybody,

The saga continues ...

Hope everybody is keeping well, and occupying yourselves. It certainly gets hard at times ...

By the way, do you remember what IS normal – It's easy to start to forget, but the main thing is to keep active and motivated, till we get past this ...

Sorry it has been so long between Society Newsletters, but I've been occupying my time teaching Online Courses, preparing the Society Friday night Webinars, processing African images, and preparing editorial for 'Photographers Thoughts' posts on Flickr & Facebook. What about you ...?

Travel

Like the 22 of us that were due to be in Africa NOW, who knows when we will travel again. I hope you have been able arrange credits, or refunds on your travel plans.

As a reminder, you might not be able to claim on your lost travel, but remember to cancel your travel insurance for your trip, and arrange a credit voucher. My voucher runs for 18 months ...

Walking Group

The Society walking group started back walking again 3 weeks ago at Woronora, every Sunday afternoon at 4pm. The walk is 4km, starting on the western side of the old road bridge carpark, and goes via Prices Circuit, over the walk bridge near the boatshed, along The Crescent, to where the gate blocks access to up to Engadine Heights, back past the RSL, along Prince Edward Park Rd, and over the road bridge back to the carpark – A nice way to finish the week with friends ...

There is regularly 6 or 7 of us walking, but any of you can join us, any Sunday, and we are social distancing (*by the way*).

Give me a ring (0415 412 244) if you would like to get messages at 2pm on a Sunday afternoons, to confirm the walk is on (*re weather etc*) ...

Outings

We will be starting back with Outings (*in the Shire*) in a few weeks, and I will give you details in the next Newsletter (*Social distancing will apply*)

Club Meetings

Our Society Meetings at the Club-on-East are still unable to be held, due the 4 sq. metre rule, especially with the numbers we get (*average 100 per meeting*). The Club is keeping me up-to-speed with developments, but still not looking positive for quite a few months, especially with the demographic of our group.

So, there is an alternative to our Club Meetings ...

COVID 19 has broken some precious social ties, and it is important to keep in touch somehow ...

Why don't you join me on a Friday night at the Society Meeting Webinar, and share our hobby with us.

We don't use cameras or microphones with our Society Webinars, so you only need your computer. The way it works, is when you sign in, you view 'my screen' on yours – That's it, sit back, LOOK & LISTEN ...

Our Society Zoom Webinar Meetings are every Friday night, and have certainly helped to fill the photographic void we were sliding into ...

So far I have hosted over 80 Webinars for Society Friday night Task nights, Photographers Thoughts presentations, two Photography Courses, and my Professional Development group.

The Society members have shared their photography at:

- **14 Webinar Society Meetings**
- Submitted over **1,000 task images**
- Participated in **13 Photographic Tasks**

Thank you all so much for all the participation and support – it's really appreciated

Yes, it has been a big learning curve to host Webinars, and has not been without its problems, but after several changes, I feel they are working well now ...

Note: Security with using Zoom has been drastically improved with extra filters and safeguards introduced.

You are already using Zoom ...

Then on Friday nights, you can use this link EVERY WEEK to join-in:

<https://us02web.zoom.us/j/88993683116?pwd=aXhSMzQ5RWhtaTHpPQzIzTTNORlhSQT09>

*Sometimes you might need to join using the Meeting I.D. **889 9368 3116** and Password: **040331***

Prior to the Webinar starting, there is NOW a 20 min lead-in presentation, starting at 6.35pm, with a trip down memory lane, reviewing images presented at previous Society Meetings at the club.

We are currently looking at images from 2015 – 2016.

You have NOT used Zoom before ...

If you have been hesitant to join-in previously, it's simple, and now is the time to do so, and get back to enjoying your Photographic Society, and viewing Member images with us. By-the-way 'Zoom' is the name of the program (platform) we use for our Webinars.

To use Zoom for the first time ...

To Sign up for Zoom

Here are the instructions to 'Sign-Up' and download Zoom program

- Google search ... zoom.us
- Top right corner, click blue box 'SIGN UP, IT'S FREE'
- Enter your email address (*personal or work – does not matter*)
- Click 'Sign Up'
- You will now receive email from Zoom that will allow you to finish registration
- When prompted, download Zoom software
- That's it ...
- You are registered to use Zoom, now to join a meeting just by clicking meeting link ...

As a Newbie to Zoom, try a Test Webinar with me 1:1

- I will be running test webinars for anybody who wishes to practice 'joining-in'
- Just ring me (0415 412 244) any day but Fridays, and tell me you would like to try Test meeting ...
- I will email you a link ...
- You just click that link, and you're in the meeting with me, to test if everything is working
- If there is any problem, then you can ring me (or vice versa) and sort it out

C'mon 'give it a go' – Join us ...

UPCOMING TASKS (submit by Thursday night 6th August)

Send images of Tasks below, to me by WeTransfer: gfphoto@optusnet.com.au

TASKS

1. **'Shadows'** (submit up to 5 images)

2. 'Bokeh' Quality background Blur ... (submit up to 5 images)

Sandy Martin sent me some samples and did some research that might help ... Thanks Sandy

Bokeh is

- The pleasing or aesthetic quality of out-of-focus blur in a photograph.
- The effect of a soft out-of-focus background that you get when shooting a subject, using a fast lens, at the widest aperture, e.g. f/2.8 or wider.
- The Japanese word for "blur"

What makes good or beautiful bokeh?

A good bokeh pleases our eyes and our perception of the image and therefore, the background blur should appear soft and “creamy”, with smooth round circles of light and no hard edges and does not distract from the purpose of the image.

How to Get Good Bokeh

Fixed (prime) lenses and most professional zoom lenses with fast apertures yield the best looking bokeh but kit lenses also give you great results.

Find a subject

Focus on an object from a very close distance (as close as the lens will allow, keeping the object in focus) Make sure that there are no objects at least 3-5 metres behind it. Make sure to be on the same level as the object itself, or looking up. Try to find a colourful, interesting background, preferably with some lights in it. Sunlight peeping through trees is good.

Camera settings

Set your camera to “Aperture Priority” mode and set your aperture to the lowest number (widest aperture). On most consumer zoom lenses, the lowest aperture is typically f/3.5, while on non-zoom and professional zoom lenses, it can f/2.8

The wider the lens, the harder it is to get bokeh (blur). Experiment – Try 18mm, 35mm, 50 mm and so on and compare for best results.

The subject should be in focus, while the background is totally blurred. The bokeh should be soft and fuzzy, looking pleasing to the eye.

Submitting your TASK Images ...

Here is the way that Society Members can CONTINUE to participate in posting Task images ...

Do as you did BEFORE

1. Members photograph and/or collate their TASK images
2. Send them to me via WeTransfer to gphoto@optusnet.com.au
3. That's it ... They will now be shown in the Society Task Webinar on Friday nights
4. Two days after the Webinar, I will post them on the SAPS Albums Flickr page ...

<https://www.flickr.com/photos/187501073@N07/albums>

'SophieCoffeeToffee Photography Chat' – Tuesday's 9.30am

Sophie Brown is running a fun (*as only she can do ...*) Photography Chat session every Tuesday morning at 9.30am. There is no video or audio, you just sit and listen to a fascinating hour with Sophie ...

There is a Chat feature to type in your questions to Sophie, or add your comments

If you can, why not join her next Tuesday to see what it is about ...

Look for the Link on the Society Facebook page:
